Attachments: Computer desks.jpg

We may have two of these available for auction as well. We are waiting for an answer from the County Library District to see if any other library wants them. They were here when I got here five years ago. They were most like purchased with County money. That's why I am offering them to other County libraries before offering them to auction.

Photo attached.

They are both 24 1/2" deep and 143" long. They accommodate four computers. They are a light/natural oak finish with charcoal-colored dividers between the individual work areas.
